- Will not wear through*
- Will not permanently stain from common household stains
- Will not permanently stain from traffic stains including asphalt driveway sealer
- Will not permanently scuff from shoe soles
- Will not rip, tear, or gouge from normal household use
- Will not permanently indent, including indentation from adequately heeled high-heel shoes and furniture indentation when proper floor protectors are used**

*Wear through is defined as loss of the floor design due to normal household use

** By adequately heeled high-heel shoes, we mean sufficient rubber on the tips.

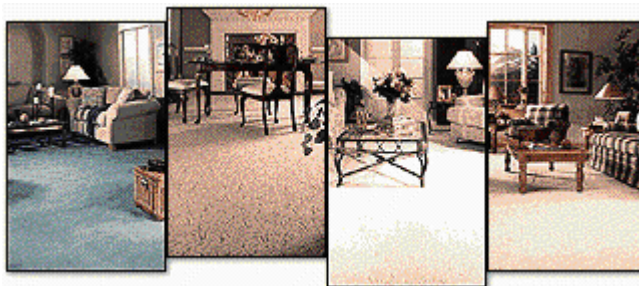

Regarding floor protectors, as a general rule of thumb, the heavier the item, the wider the floor protectors should be.
